

PANTONE VALIDATED SIGNAGE

# A Different Level of Colour

## Color Performance Reimagined

### Pantone® Validated Accuracy

The SL04 and SH04 series are the first professional signage solutions to be Pantone® and Pantone® SkinTone™ Validated. Display brand colors and diverse skin tones with professional-grade precision.

### Vivid Professional Brightness

Whether you require the standard 500-nit SL04 or the high-output 800-nit SH04, your content remains legible and vibrant even in brightly lit environments.

### MacBook® Color Consistency

Exclusive M-book mode ensures total color synchronization between your workstation and the large-format display. Present your work exactly as intended.

### Engineered for 24/7 Use

Designed for the most demanding environments. Industrial-grade cooling and durable panel technology allow for reliable, non-stop operation.

### Streamlined Workspace Integration

With Android 13.0, these displays support portrait and landscape orientation, wireless casting via InstaShare 2, and remote fleet management via BenQ DMS.

# Technical Comparison

## SL04 RANGE SIZES

43" | 55" | 65" | 75" | 86"

## SH04 RANGE SIZES
